# 3 WAYS TO FILL YOUR MORNING APPOINTMENTS

## Set Expectations

Level with patients from the beginning.  
Have patients sign off that some appointments **MUST**  
be in the morning.  
This will help avoid tensions down the line!

## Offer Morning Slots First

Don't offer up your limited afternoon slots right away.  
Instead, speak to the open morning availability.  
Plus, try emphasizing the quicker turnaround  
(8 weeks rather than 10!)

## Keep It Consistent

If you already have patients with a history of morning  
appointments, keep them in that slot!  
This is especially true with your adult patients.
