THE WYRICK OUTLOOK, INC

THE 6 MOST IMPORTANT STEPS TO GET OUT OF NETWORK

1

Analyze how much are you writing off per insurance company and how many MORE patients you'll need to make up the difference.

2

Run a report for which insurances are most-least popular within your office.

3

Analyze fee schedules to determine which to leave first.

4

Call the insurance company to determine what is needed to leave the network AND how this will affect your existing patients

5

Notify Patients that your practice is going out of network.

6

Issue a CERTIFIED letter to the insurance company to get out of network.
