DENTAL ASSISTANT

ORTHODONTIC ASSISTANT

COURSE OUTLINE

AN ON-DEMAND MASTERCLASS DEDICATED TO YOUR ORTHODONTIC ASSISTANT

COURSE DESCRIPTION

IMAGINE THIS

You just finished your dental assisting program and land a killer assisting position at an awesome office. The catch? It's an orthodontic office and you learned the BARE minimum about orthodontics in your assisting program!

Full mouth x-rays? Nope. Dental cleanings? Not here! Crown prep? Nah. Universal tooth numbering system? Negative. Not in Ortho! You've spent the last 10 months studying and busting your booty to learn all these dental skills....except the ones you need NOW!

So what do you do? Fake it till you make it? Start jotting notes in the clinic? Or do you level up and LEARN what's need to be that rocking' ortho assistant that you were hired on to be? We say #LEVELUP

Dental assistant 2 Ortho assistant is an on-demand masterclass specifically designed for dental assistants that are in need of orthodontic knowledge. When gains are added, mini orthodontists are made!

AFTER THIS COURSE, WE WANT YOU TO:

- Demonstrate clinical assisting skills related to orthodontic procedures
- Prioritize work efficiencies to enhance workflow
- Recognizing the "why" behind your daily tasks.
- Demonstrate a proactive approach to ensure clinical efficiency

DA OA

CHAPTER ONE:
DENTAL ASSISTANT OR ORTHO ASSISTANT? THAT'S IS THE QUESTION...

CHAPTER TWO:
CLINICAL 101
